

SANJIVANI AKASH WAGH

Full Stack Developer & Educator | JavaScript | React | Angular | Node.js | Ionic | Mobile Apps

+91-8600706560 • sanjivaniw1703@gmail.com • linkedin.com/in/sanjivani-wagh-759264341

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Educator with over 5 years of combined industry and academic experience. Specializes in building scalable web and mobile applications using JavaScript, React, Angular, Node.js, and Ionic. Currently serving as Assistant Professor, delivering hands-on instruction in C Programming, Data Structures, Full Stack Development, Operating Systems, Mobile App Development (Android), and Blockchain. Passionate about bridging industry practice with academic excellence through clean, maintainable code and student-centered teaching.

PROFESSIONAL EXPERIENCE

Assistant Professor

HPT Arts & RYK College, Nashik

September 2025 – Present

- Conduct practical lab sessions for C Programming and Data Structures, reinforcing foundational programming concepts with hands-on exercises.
- Deliver comprehensive instruction in Full Stack Development, covering front-end (HTML, CSS, JavaScript, React) and back-end (Node.js, Express, MongoDB) technologies.
- Teach Operating Systems theory and practicals, including process management, memory management, and file systems.
- Instruct theory subjects in Mobile App Development (Android) and Blockchain, keeping curriculum aligned with current industry trends.
- Design assignments, projects, and assessments that bridge classroom learning with real-world application development.

MEAN Stack Developer

Ency Consulting Group, Chennai

May 2021 – September 2021

- Wore multiple hats across front-end and back-end development, contributing to all layers of the MEAN stack.
- Collaborated closely with cross-functional team members to maintain a smooth, efficient development cycle and deliver high-quality products.
- Managed database schemas and RESTful API integrations to support dynamic web application features.

UI/UX Developer (Angular)

Eduonix Learning Solutions, Navi Mumbai

December 2020 – May 2021

- Led front-end development of an e-learning platform, building interfaces for course browsing, user registration, and profile management.
- Partnered with UX/UI designers to ensure design standards, responsiveness, and cross-browser compatibility were met.
- Authored and enforced front-end best practices, ensuring scalability, security, and performance optimization of client-side code.

Senior Developer

Application Nexus Web Services, Nashik

July 2018 – October 2020

- Led a development team, driving technical vision, architecture decisions, and code quality standards across projects.
- Mentored junior developers through code reviews, pair programming, and technical guidance.
- Collaborated across teams to deliver scalable, maintainable applications with strong focus on user experience and performance.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js (MERN), Angular (MEAN), Redux, React Router, Bootstrap, Material UI

Mobile: Ionic Framework, Angular (Android & iOS), Capacitor Plugins

Backend: Node.js, Express.js, RESTful API Development

Database: MongoDB, Mongoose, SQLite, SQL

Auth & Payments: JWT, OAuth2, PayPal Integration

Real-time: Socket.io, Push Notifications

Version Control: GitHub, GitLab

Teaching Areas: C Programming, Data Structures, Full Stack Development, Operating Systems, Mobile App Dev (Android), Blockchain

KEY PROJECTS

Central Market

Stack: Ionic, Angular | Android & iOS | PayPal

- Built a cross-platform grocery/food ordering app with real-time product updates, cart management, and payment gateway integration.
- Implemented home delivery and curbside pickup options, push notifications, and optimized UI/UX performance for both Android and iOS.

Wine Cellar

Stack: Ionic, Angular | Node.js, MongoDB | Android & iOS

- Developed a full-stack mobile app for wine collection management with virtual shelves, tasting notes, and real-time backend synchronization.
- Designed and built REST APIs for wine storage, retrieval, and data syncing with the mobile front end.

Hangout Clone (Chat App)

Stack: ReactJS | Socket.io | Firebase Auth | MongoDB

- Built a real-time chat application with messaging, chat rooms, file sharing, and Google Login authentication.
- Ensured responsive design across desktop and mobile using React Router for seamless navigation.

Veteran Quotes

Stack: Ionic, Angular | SQLite | Android

- Created a mobile app for browsing, favoriting, and sharing military quotes using Ionic Capacitor native sharing plugins.
- Implemented category-based search and sharing via social media, SMS, and email.

Billboard Italia

Stack: Ionic, Angular | Android

- Developed a feature-rich music/magazine app with artist updates, charts, podcast listening, and offline reading capabilities.
- Integrated push notifications for real-time content updates and subscription management.

Eduonix Learning Platform

Stack: Angular, ReactJS | JWT, OAuth2 | GitHub

- Built and maintained front-end interfaces for course browsing, registration, and progress tracking.
- Ensured scalable, secure client-side code with performance optimization.

EDUCATION

Master of Computer Science

Savitribai Phule University — HPT Arts, JDB Commerce & NSC Science College, Nashik | 2018 | CGPA: 9.2

Bachelor of Computer Science

Savitribai Phule University — RNC Arts, JDB Commerce & NSC Science College, Nashik Road | 2016 | 75.08%
