Professional Summary

Dedicated Software Test Engineer with robust expertise in **Manual Testing**, **Automation Testing**, and **API Testing** using industry-standard tools like **JIRA**, **Postman**, and **Selenium**. Adept at implementing **Agile Methodology** and managing all phases of **Software Development Life Cycle (SDLC)**. Proven track record in designing and executing test cases, ensuring defect-free software, and improving testing efficiency. Seeking to contribute to high-performing teams with a focus on quality assurance and product reliability.

Education

Bachelor of Engineering in Computer Engineering

Pune University | August 2022 | Pune, India

Diploma in Computer Engineering

MSBTE | July 2019 | Nashik, India

Certifications

- Certified Software Testing Course, **Profound Edutech Private Limited**
 - Workshop on Internet of Things (IoT), **K.K. Wagh Polytechnic, Nashik**
-

Professional Experience

Software Quality Analyst

Upcurve Consumer Technology Pvt. Ltd. | February 2024 – November 2024 | Pune, India

- **Led Testing Efforts:** Designed and executed test cases for web and mobile applications, focusing on Udchalo Websites to meet organizational standards.
 - **Cross-Functional Collaboration:** Participated in daily stand-up and Scrum meetings to ensure alignment with sprint priorities and project timelines.
 - **Defect Management:** Utilized **JIRA** to log, track, and resolve defects, achieving **98% defect closure rate**.
 - **API Testing Expertise:** Conducted comprehensive API testing using **Postman**, ensuring **100% compliance with functional specifications**.
 - **Reporting:** Prepared and shared detailed daily and weekly status reports, enabling transparent communication with stakeholders.
 - **Lifecycle Management:** Ensured adherence to **SDLC** and **Agile practices**, delivering high-quality software products on schedule.
-

Internship

Completed a **9-month internship** focused on enhancing practical knowledge of **Software Testing Life Cycle (STLC)**, defect lifecycle management, and hands-on exposure to **test automation tools**.

Technical Skills

- **Testing Tools:** Selenium, Postman, JIRA, Zephyr
 - **Programming:** Java, SQL
 - **Testing Methodologies:** Manual Testing, Automation Testing, Functional Testing, Regression Testing, API Testing
 - **Development Frameworks:** Agile Methodology, Scrum Activities
 - **Documentation & Reporting:** Test case design, Test execution, Defect reporting, Test status reporting
-

Key Projects

- **Covid-19 Examination Process on Airport**
Developed a streamlined testing solution to ensure efficient and secure processes during airport examinations.
 - **Indian Sign Language Using Leap Motion Sensor**
Designed and tested a system to interpret Indian Sign Language gestures, enhancing accessibility for hearing-impaired individuals.
-

Achievements

- Improved test case execution efficiency by **20%** through process optimization and tool usage.
 - Ensured **100% alignment** with project deadlines and quality benchmarks during tenure at Upcurve Consumer Technology Pvt. Ltd.
 - Recognized for maintaining **high defect detection accuracy** and proactive communication with cross-functional teams.
-

Professional Strengths

- Expertise in understanding and analyzing test requirements and translating them into high-quality test cases.
- Strong knowledge of **Defect Life Cycle** and proficiency in defect tracking tools like **JIRA**.
- Quick learner with demonstrated ability to adapt to new tools and technologies effectively.
- Strong collaboration and communication skills, ensuring seamless teamwork and coordination.
